Bola Tangkas, or Indonesian-style poker, is an exciting game using 7 cards to create the highest card combination. Unlike traditional poker, the game is a variation of the five-card draw poker game that involves tossing out 2 other cards. In each game, a player can bet up to four times (4 bets), with each bet receiving one to two cards and a higher payout. A player can only win the game and receive corresponding prizes if they have 5 cards out of the 7 that constitute a poker hand.

- Bet up to 4 times in a game for maximized payout!
- Exciting bonus bet option to win payout up to 500x!
